P2

That evening, Amy was just about to finish reading a book, but she didn't want to go to sleep. She looked at her watch – it was already 2 am.

Р3

Suddenly, a dog started barking outside! Amy walked out of her room and saw Xigua opening the door and going outside. How could Xigua open the door? Where was he going? Amy followed behind him.

P4

The dog outside the door was Miss Wan's dog, Caesar.

Xigua and Caesar walked very far, until they got to the front of a shop next to the train station.

P5

Amy was extremely surprised, as there were hundreds of cats and hundreds of dogs there! No, there were more than a thousand dogs! "Have I arrived in the Land of Cats and Dogs?" she thought.

P6

When the cats and dogs saw Xigua arrive, they laughed: "Xigua! Do you think you're really a dog?" the white dog, Xixi, shouted loudly. This made Amy really angry. "You don't understand!" she thought to herself.

"My owner really likes pandas, so ..." Xigua said, embarrassed. Everybody laughed again, even Caesar.
